This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. GOVERNOR'S PARLOR.

CUSTODIAN'S REPORT.

CUSTODIAN'S OFFICE, October 31, 1900.

HON. JAMES A. MOUNT, *Governor of Indiana:*

SIR—In compliance with a law enacted on March 5, 1889, creating the office of Custodian of Public Buildings and Property, and directing the Custodian to file a report in the office of the Governor at the end of each quarter, or on the last days of March, June and September of each year, an annual report on the last day of December of each year, and a report for the two years preceding each session of the General Assembly, I have the honor to submit herewith, for your examination and the consideration of the General Assembly, the sixth biennial report of this office, comprising a full and complete account of all expenditures from the several funds covering the period from November 1, 1898, to October 31, 1900. All previous reports, as required by law, have been duly filed with the Governor.

LOCATION OF CAPITOL.

The State Capitol is located on what is now squares 48 and 53, city of Indianapolis, which squares are bounded by Ohio street on the north, Capitol avenue (formerly Tennessee street) on the east, Washington street on the south and Senate avenue (formerly Mississippi street) on the west, making a tract of land 930 feet in length and 420 feet in width, and containing about nine acres.

The Fourteenth Congress of the United States, first session, Chapter 57, approved April 19, 1816, donated to the State of Indiana four sections of land in township 15, north of range 3, east of the principal meridian, upon which to found a permanent seat of government, in which is located square 53, formerly occupied by the old State House, and now a part of the

present site. The north half of the present site consisted of square 48, which contained twelve lots, numbered from 1 to 12 respectively. On March 14, 1873, the State acquired lot 3, by purchase from W. P. and E. P. Gallup, for the sum of $19,500; the remaining lots of the above-mentioned square were deeded to the State of Indiana by the city of Indianapolis, in consideration of the sum of one dollar ($1.00) by a quitclaim deed, December 7, 1877, recorded January 7, 1878, in Book Town Lots, No. 110, page 599, filed in Recorder's office, Marion county. That portion of Market street, between Senate and Capitol avenues (formerly Tennessee and Mississippi streets), which was the dividing line of squares 48 and 53, and that portion of Wabash street running through square 48, between Capitol and Senate avenues, and that portion of Huron street running through square 48, between Market and Ohio streets, were declared vacated and donated to the State of Indiana for the erection of a new State House, by the Common Council and Board of Aldermen, April 23, 1878. A plat of the grounds as described, is on file in the Custodian's office, as required by law.

REPORT.

ILLUMINATION OF HOUSE AND GROUNDS.

The annual appropriation of $2,500.00 is insufficient. The interior of the building should be better lighted and arc lights should also be placed at the four corners of the house to afford sufficient light to the public who may have occasion to cross the grounds.

I believe it would be economy for the State to install its own electric lighting plant and operate its elevators by electricity, the present method of operation being both ancient and perplexing.

CARPETS.

Carpets in the House and Senate are so badly worn that they are not in keeping with the beauty and dignity of the chambers. It will require 571 yards for the Senate and 616 yards for the House. New carpets are also badly needed for the use of the Supreme Court. To refurnish the rooms requiring the same, it will take 313 yards.

Photogravure by Wm. B. Burford, Ind'pls.

SENATE CHAMBER.

LINOLEUM.

The linoleum is worn-out in a number of the offices and will require 900 yards of new linoleum to replace the same. Of the old linoleum taken up, a sufficient quantity may be saved to replace the floors of the museum.

FLAGS.

The Capitol owns no flags. I desire especially to call attention to the fact that there are now no flags belonging to the State available for decorative or other purposes. The limited supply of old flags on hand at the time the present Custodian assumed charge of the Capitol building has been exhausted and there are no funds available for the purchase of new flags. I would, therefore, respectfully suggest that a special appropriation be made for the purchase of such flags as may be deemed needful for decorative purposes on State occasions, thus obviating recourse to the embarrassing expedient of borrowing, to which the Custodian has heretofore been compelled to resort.

WALKS.

Walks should be laid across the grounds, east and west, parallel with the building, on the north and south sides of the grounds. This would afford a commodious thoroughfare for the public and relieve the building of much confusion, besides greatly adding to the keeping and dignity of the building and the cleanliness of the same.

OUTER WALLS.

The outer walls of the Capitol have been repointed, which prevents the water from penetrating them at any point, giving a uniform color to the walls, the spots from discoloring, due to leaks, disappearing.

DISPOSITION OF MAIL MATTER.

Owing to the accumulation, annually, of tons of second-class mail matter, some provision should be made for its transportation to the postoffice, as this class of mail matter is constantly increasing.

WINDOW SHADES.

Two hundred and seventy-four window shades, that have been in use for twelve years, are very badly damaged and are virtually worn-out. These window shades should be replaced by new ones.

ROOF.

The roof is in good condition, but can only be kept so by daily inspection and constant repairs.

INTERIOR WOODWORK AND LOUNGES.

Much of the inside woodwork and office furniture should be refilled and revarnished. This can be done with much less expense now, than two years hence.

A majority of the leather lounges in the various offices also need recovering.

USE OF LEGISLATIVE HALLS.

Under the present precedent, established by custom heretofore, the legislative halls have been at the disposal of various miscellaneous meetings, and though detrimental to the original purposes of these chambers, the Custodian has not felt that it was in his province to discriminate.

The question, I think, should be settled by legislation, to the satisfaction of the taxpayers of this State by the honorable body of gentlemen who represent their interests in the General Assembly of 1901.

IN GENERAL.

At a meeting of the Finance Board, held May 22, 1899, the Custodian was directed to remove from the basement such rubbish and refuse, including the old and worthless reports, Documentary Journals, etc., that had accumulated in the basement in past years, from the terms of the various State officers, after first consulting with the officer in whose storeroom or department such rubbish had accumulated, and to sell the

HOUSE OF REPRESENTATIVES.

same and pay the proceeds of such sale into the State treasury, obtaining a quietus for the amount so turned over to the Treasurer.

Accordingly I have followed out the above instructions to the best of my ability, and have deposited in the State treasury the sum of one hundred and thirty-two dollars, the proceeds of the sale of the paper, old books, etc., for which I hold the Auditor's quietus No. 3583.

I also hold Auditor's quietus for the following moneys, returned to the State treasury:

Sale of old carpet	$3 75	No. 3582
Overdraw, Holcomb & Hoke draft, brushes bought	2 25	No. 4382
Sale of old carpet	3 00	No. 3787
Amount returned to repairs	14 43	No. 2944
Sale of old carpet	24 50	No. 3268
Returned by the order of the Governor, amount expended upon presentation of flag and Spanish gun to the State	33 07	No. 3069
Sale of old copper	36 00	No. 4284

CARD OF THANKS.

In conclusion, the men in my employ are deserving of my gratitude for the faithful manner in which they have performed their several duties. To the State officers, I am truly grateful for their forbearance and kindness to me, whilst trying to serve them as fair and impartial as was my ability, with the means entrusted to my keeping.

Very respectfully,

J. W. VEST,
Custodian.
